PROSPECTUS.

HISTORICAL STATEMENT.

The College of the Sacred Heart was erected in 1888, and, under the direction of the Fathers of the Society of Jesus, was formally opened in the fall of the same year.

By an act of the State Legislature, April 1, 1889, it was empowered to confer University and Collegiate Honors and Diplomas.

LOCATION AND EQUIPMENT.

A more desirable site for a College building could hardly have been chosen. Situated in the suburbs of the north side of Denver, it commands an unobstructed view of the entire Rocky Mountain range. Owing to such location, the air is peculiarly free from the smoke and noxious vapors of the city.

The grounds belonging to the institution cover a tract of fifty acres. They are adorned with beautiful avenues and walks, and studded with an abundance and variety of shade trees.

The College building, which is four stories high, is provided with spacious dormitories and well-lighted class rooms and halls. The large physical cabinet on the second story is equipped with the most modern scientific instruments, while the chemical laboratory on the first floor, besides being furnished with the usual chemical apparatus, possesses several furnaces for assay work.

COURSE OF STUDIES.

The College does not profess to train specialists, but, by means of a thorough liberal education develop the mental and moral faculties of the student. While the study of the ancient classics is considered to be of paramount importance in the proper formation of mind, and an indispensable preparation for the studies of the various learned professions, the branches of a purely commercial education are by no means neglected. Hence, besides Mental and Moral Philosophy, Classics, Physics, Chemistry and Higher Mathematics, the course embraces Oratory, English Literature, Commercial Law, Bookkeeping, Commercial Arithmetic, Telegraphy, Typewriting and Shorthand.

The commercial branches may be finished within the first four years of the regular course. To the student who passes a successful examination in these branches, a Commercial Certificate will be awarded.

Apart from the study of English, which is specially insisted on in the Collegiate and Academic departments, particular attention is paid to the study of the leading modern languages, such as Spanish, German, French and Italian. The system of instruction is thoroughly practical.

Instruction is given in Elocution for one hour each week. Frequent opportunities to speak in public are given to the students, throughout the year, and in the early part of May, members of the Senior and Junior divisions, publicly compete for the Gold Medals awarded for excellence in Elocution.

POST GRADUATE COURSE.

The object of this course is to enable our graduates to further continue their philosophical and literary studies. Attendance, however, is not limited to graduates.

ACADEMICAL DEGREES.

A. B.—The degree of Bachelor of Arts is conferred upon students who have successfully completed the classical course, as outlined in this catalogue.

S. B.—For the degree of Bachelor of Sciences, the same examinations are required as for the degree of A. B., with the exception of those in Latin and Greek.

A. M.—The degree of Master of Arts is conferred upon those who, having received the degree of A. B. and followed the Post-Graduate Course, after due examination, have been found sufficiently qualified.

S. M., PH. B.—The degrees of Master of Sciences and of Bachelor of Philosophy are conferred upon those who, having received the degree of Bachelor of Sciences and attended the lectures of the Post-Graduate Course, are deemed, after due examination, sufficiently qualified.

MORAL TRAINING.

In the Jesuit system of education, the formation and training of character, is deemed a most important feature.

The supervision which the College authorities exercise over the students, is such as to exclude every harsh feature and is as close as any parent or guardian can reasonably expect. The rules of the College are publicly read at stated times, and the manner of enforcing them, while mild and considerate, is unflinchingly firm.

Strict obedience to professors and those in authority, assiduous application to study and blameless conduct are required from every student. Any serious fault regarding these essential points will render the offender liable to effective correction, and even to dismissal, if such be deemed necessary.

The College authorities, moreover, expect from all the students the manners and deportment of perfect gentlemen. Talks on politeness are given regularly by one of the professors.

As the uplifting of character and good discipline can never be steadily secured without an appeal to conscience and religion, particular attention is paid to religious instruction. Christian doctrine is one of the prescribed studies in every class and the students are obliged to comply with their religious obligations regularly.

The convictions of non-Catholic students are respected and no effort is made to obtrude Catholic doctrines on them. Discipline, however, requires that they be present, and behave with due reverence at all public religious services.

For the better maintenance of discipline and the progress of the student, parents are requested not to seek any exemption for their sons, from the ordinary college rules. They must not visit them during the hours of class or study, nor seek a leave of absence for them, except for the most urgent reasons.

PHYSICAL TRAINING.

While holding athletics to be of secondary importance in every educational establishment, the authorities are well aware of their influence for good, when rightly directed and under proper control. Hence, they have spared no expense in providing the students with ample facilities for athletic work. Besides tennis courts and hand ball alleys, the College possesses one of the finest parks in the state, for foot ball, base ball and track work. The park is enclosed by a neat board fence and provided with a good sized grandstand.

Physical instructors and experienced coaches are provided and as the supreme direction of Athletics is entrusted to a member of the Faculty, care is taken that the health or the studies of the students do not suffer any detriment.

SESSION.

The academic year consists of one session of ten months, beginning on the first Tuesday of September and closing in the last week of June. The session is divided into two terms, the first ending on the first day of February, the second in the last week of June.

EXAMINATIONS.

Four times during the session, bi-monthly competitions are held, in which the student is examined in all the principal branches of his class. Besides these competitions, there is a thorough examination at the close of the school year.

PROMOTIONS.

Annual promotions are decided by the class averages of the entire year, combined with those of the bi-monthly competitions and examinations. Students failing to obtain an average of 66 per cent. in the collective branches of their classes cannot expect to enter a higher class.

A student failing in any one of the essential branches of his class is considered "conditioned," and if he does not, within the time allotted, pass a satisfactory examination in the branch in which he has failed, he shall be sent to a lower class.

Students who are found worthy will be promoted to a higher class at any time during the year, especially at the beginning of a new term.

REPORTS.

Reports of scholarship and deportment are sent to parents or guardians at the beginning of each month. The reports forwarded in October, December, February and April, give a detailed account of the averages obtained in the bi-monthly competitions.

PRIZES.

The following prizes are awarded annually on Commencement Day:

A Gold Medal for general excellence is awarded in each class of the Collegiate and Academic departments.

Besides these, two Gold Medals are awarded for excellent deportment, one in the Senior and one in the Junior Division.

The Nichols Gold Medal is awarded in the Senior Division for excellence in Elocution, and a Gold Medal annually donated, is also awarded for excellence in Elocution in the Junior Division.

The Sullivan Medal is awarded for the best English composition and the Catechetical Medal for the best Catechetical Essay.

Besides these Medals, prizes in books are awarded to the students who obtain the highest average in the respective branches of class competitions.

All prizes are decided by the class-averages of the entire year, combined with those of the bi-monthly competitions. The resulting average must exceed 79.

Late arrival, protracted absence or irregular attendance will debar a student from prizes.

CLASS DAYS.

Classes are taught every day of the week except Sunday. On Tuesday and Thursday afternoons, there is a half holiday, unless the preceding or following day happens to be a full holiday.

A recess of nearly two weeks is granted at Christmas, at which time resident students may visit their homes.

A short recess is granted at Easter, beginning Holy Saturday at 10 a. m. and lasting until the evening of the following Monday.

During this recess, only those students whose parents reside in the city, are allowed home.

DAILY ORDER OF TIME.

The hours of class are from 9 a. m. to 11:30 a. m. and from 1:30 p. m. to 3:30 p. m., with suitable intervals of short recesses.

Four full hours every day are spent by the students in their respective study halls in preparation for class.

VISITORS.

Visits may be paid to resident students on Sunday afternoon from 2 to 4 o'clock. Parents and friends are requested not to call at other times, unless it be strictly necessary.

Visitors who are not known to the College authorities, must come with a letter of introduction from the parents or guardians.

ADMISSION.

Parents or guardians, in making application for their sons or wards, must state precisely the age of the candidate for admission and give a full account of the studies he has successfully pursued. If they are not personally acquainted

with some member of the Faculty, they are required to present satisfactory testimonials of the candidate's moral character, as the College authorities decline to receive applicants whose morals are not irreproachable.

No one will be admitted for a shorter period than five months.

Though the College is under Catholic direction, difference of creed is no bar to admission.

HALF BOARDERS AND DAY SCHOLARS.

The College authorities consider themselves bound to procure, as far as possible, the advancement of all their students; but if the parents or guardians fail to comply with the College regulations, it will be impossible to insure success.

Parents and guardians are accordingly exhorted to see that their sons or wards devote at home two or three hours daily to class study. If a student does not devote this amount of time to his studies, the Prefect of Studies should be informed.

The next duty which should claim the attention of students and the vigilance of parents or guardians, is punctuality. Attendance from the *first day* of the session, attendance *every day*, attendance the *whole day*, is strictly required. A notice should be sent to the Prefect of Studies whenever illness prevents a student from attending class. If a student is absent for any other grave reason or tardy, a written excuse signed by parents or guardian must be handed to the Prefect before he is admitted to class.

Frequent absence or tardiness, except on account of illness, is deemed a sufficient cause for dismissal. Students who come unprepared in lessons or exercises are required to bring a written excuse from parents or guardians.

Parents are earnestly requested to demand the monthly reports the first Wednesday of each month, to examine them carefully and to return them signed to the Prefect of Studies the day following.

If parents fail to insist on these points, they need not be astonished if their sons disappoint their expectations.

Half boarders dine and lunch with the boarders.

Though the College does not hold itself responsible for offences committed out of its jurisdiction, yet any conduct that is detrimental to the reputation of the institution or the moral good of the other students is sufficient cause for suspension or expulsion.

Students who are withdrawn, without good reasons, before the close of the June Examinations, will not be allowed to take the examination in September in order to secure promotion.

It is strictly forbidden to take out or bring in letters or go on errands for boarders without the approval of the Prefect of Discipline.

Due notice should be given to the President or to the Vice-President of a change of residence or of the contemplated withdrawal of a student.

PRACTICAL ORATORY AND DEBATING.

Course I—(Senior, Junior and Sophomore Years.)

The object of the course is to enable the students to acquire a practical knowledge of parliamentary law, as well as readiness and fluency in public speaking. Once a week debates on topics of the hour, or on historical subjects are held. Each debate is followed by a criticism of the oratorical efforts of the speakers.

Course II—(Freshman, First and Second Academic.)

The object of the course is essentially the same as that of the course outlined above. The course includes regular

debates on questions within the mental range of the members, involving careful preparation, clear and logical treatment; off-hand speaking in rebuttal of arguments or in the transaction of business.

COMMERCIAL STUDIES.

The course of Bookkeeping and Commercial Law, though secondary, is complete in itself, and covers a period of three years, as follows:

First Year—Principles of Double Entry.

Second Year—These principles applied in the class room by actual business transactions. Banking, Single Entry explained.

Third Year—Commercial Law, entire, with cases.

Text-Books—Bookkeeping; the Supply and Demand System; Commercial Law; Clark's Commercial Law.

ASSAYING.

This course is open to all students, who, after an oral examination, are judged to be proficient in general Chemistry.

No lectures are given. The work is essentially practical from the outset. The aim of the course is not to impart a very extensive knowledge of Chemical Analysis, but to make the student thoroughly familiar with such fundamental principles as will fit him to do the ordinary technical work required in an assay office.

Only two lessons are given weekly, but experience proves that to be profitable they require three or four hours each.

No books are required, but each student is expected to copy and study the written directions given him at each lesson.

Attention is first given to blowpipe Analysis. The student is then made to master the fire Assay of Gold, Lead and Silver, and is then gradually acquainted with those volumetric and gravimetric processes which will allow him to make the following determinations:

Copper, Iron, Zinc, Silica, Manganese, Sulphur, Lead, Molybdenum, Tungsten, Tin, Cobalt, Nickel, Uranium.

This course has been in existence several years and the responsible positions held in various mining camps and assay offices of this state by some of its former students are an ample proof of its usefulness.

For the hours of lessons and fees, arrangements can be made with the Prefect of Studies and the professor.

DRAWING—The course of Drawing is arranged with the intention of preparing students for any university, technical college and calling, in which a knowledge of scientific draughtsmanship is required.

First Year—Practical Plane Geometry and Elementary Solid Geometry.

Second Year—Projection and Perspective, with Engineering and Architectural details.

SHORTHAND—The course of Shorthand includes all the principles of the art. It is taught three times a week.

TELEGRAPHY—For the Telegraphic Department, a room is provided and equipped with line instruments. Instruction is given five times a week. A good knowledge of the subject may be acquired in one year.

TYPEWRITING—The machines in use are of the standard type, with the latest improvements. Instruction regarding their manipulation is given six times a week.

MUSIC—This department is complete in all its branches, and is conducted by able professors. The College Orchestra and the St. Cecilia Society, which have always enlivened our public and private entertainments, prove that the College authorities encourage this study.

SCHOLARSHIPS FOR DAY SCHOLARS.

The Board of Trustees at their meeting on May 15, 1889, resolved to offer a free scholarship for day-scholars in the Classical course to one successful competitor from every parochial school within the city limits.

CONDITIONS.

1. The competitor must not be under twelve years of age.
2. He must be fit to enter at least the Third Academic class.
3. The holder of a scholarship must never show himself unworthy of the privilege, on account of misconduct, want of application to study, or lack of talent.

N. B.—At present each parochial school is represented by a candidate, who holds the scholarship.

CLASS REGISTER.

In this list the students are graded according to their standing for the year's work; the standing being determined by the result of the written and oral examinations and daily recitations combined, indicated by classification into six grades, as follows: *a* signifies excellent; *b* signifies good; *c* signifies technically satisfactory; *d* signifies incomplete (character of the work has been satisfactory, but the student has not completed all the work assigned); *e* signifies a condition (student must pass a second examination in the subject to obtain credit); *f* signifies complete failure (the student receives no credit whatever for the course and is obliged to repeat the year). Absence from the examinations, unless satisfactorily explained, is equivalent to complete failure. Seniors are not classified. Students who have not completed the year are omitted.
