HISTORICAL SKETCH

1888. The foundations of Regis College were laid as far back as the pioneer days of 1877, when the Fathers of the Society of Jesus opened the Las Vegas College in Las Vegas, New Mexico. About that time Colorado was beginning to give promise of the amazing development which is so much in evidence today. Altho to the big possibilities and to the proportionate need of better educational facilities, the Jesuit Fathers at the invitation of Bishop J. P. Machebeuf of Denver founded a second school for the education of young men at Morrison, Colorado, in 1884. Beautiful as was the location of the Morrison College, it soon became evident that Denver was to become the metropolis of the Rocky Mountain region, and accordingly the colleges at Las Vegas and Morrison were merged into a third institution during September, 1888. This third college was located on a tract of land near the northwestern limits of the City of Denver and for thirty-five years under the name of the College of the Sacred Heart it was well known as one of the flourishing educational institutions of the West. The first President of the College of the Sacred Heart was the Reverend Salvator Persone.

1889. The College is authorized to confer degrees by Section 1 of an Act of March 28th, 1889 (Session Laws of 1889, p. 121) which states that: "Any corporation, now or hereafter existing for educational purposes, under the laws of this State, which shall maintain one or more institutions of learning of the grade of a university or college, shall have authority by its directors or board of trustees or by such person or persons as may be designated by its constitution or by-laws, to confer such degrees and grant such diplomas and other marks of distinction as are usually conferred and granted by other universities and colleges of like grade."

1893. The College was incorporated on November 27th, 1893. Article 1 of the Constitution reads: "The name of this Corporation is the College of the Sacred Heart, Denver, Colorado. Its object is to encourage learning, to extend the means of education, and to give permanency and usefulness to the said Institution."

1921. On April 19th, 1921, the following amendment to the Articles of Incorporation was adopted:

At a meeting of the Board of Trustees of the College of the Sacred Heart, Denver, Colorado, a corporation organized and existing under and by virtue of the laws of the State of Colorado, duly called and held for that purpose,—

On motion it was resolved that Article 1 of the Articles of Incorporation of said College of the Sacred Heart, Denver, Colorado, be amended so as to change the name of said corporation from "College of the Sacred Heart, Denver, Colorado," to "REGIS COLLEGE."

SYSTEM OF EDUCATION

The educational system in use throughout the College is not an experiment, but an organized system, definite in its principles and in its purpose, resting upon a long and wide experience. Substantially it is the same as that employed in the two hundred and twenty-seven colleges and universities conducted by the Society of Jesus in nearly all parts of the world.

Psychological in its methods and based upon the very nature of man's mental process, it secures that stability which is so essential to educational thoroughness, while at the same time it is reasonably elastic, so as to make liberal allowance for the widely varying circumstances of time and place.

In the **intellectual training** of its students the College aims at laying a solid foundation in the elements of knowledge, and at opening the mind to a generous share in the culture of life. Holding as a fundamental tenet that different studies have distinct educational values, so that specific training afforded by one cannot be fully supplied by another, the studies are chosen, prescribed and recommended each for its peculiar educational value and for its place in a complete and nicely adjusted system.

In its **moral training**, the College directs its efforts toward building the conscience of its students for the right fulfillment of their civil and religious duties. The avowed purpose of its training is to lay a solid foundation in the whole mind and character of the student, amply sufficient for any superstructure of science and arts and letters, fully adequate, too, for the upbuilding of that moral life, civil and religious, which must ever be rated the highest and truest honor of worthy manhood.

Knowledge and intellectual development of themselves have no moral efficacy whatever; science, as such, has never made even one true man; the best chemist or engineer, the most eminent astronomer or biologist, may be infinitely far from being a good man. Religion alone can purify the heart and guide and strengthen the will. Religion alone can furnish the solid basis upon which high ideals of business integrity and of moral cleanliness will be built up and conserved. Religious truth, then, must be the very atmosphere that the student breathes; Christianity must suffuse with its light all that he reads, illuminating what is noble and exposing what is base, giving to the true and to the false their relative light and shade; the divine truths and principles of consistent Christianity must needs be the vital force animating the whole organic structure of education. Accordingly, the study of religion is prescribed for all Catholic students. The reception of the Sacraments every month is set before them as the minimum. The College is intended for Catholic students. However, a small percentage of non-Catholic students have been admitted annually.

Although the **physical well-being** and training of the students is only of secondary importance in educational systems, inasmuch as it must be subordinated to mental and moral development, the College authorities have never overlooked its relative place and value.

COURSES OF INSTRUCTION

The College offers curricula leading to the following degrees: Bachelor of Arts, Bachelor of Science, Bachelor of Science in Commerce, Bachelor of Philosophy.

Teacher-Training courses are offered to candidates for degrees.

Besides these four-year curricula, leading to baccalaureate degrees, the College offers the following minimum pre-professional courses: Pre-Dentistry, Pre-Engineering, Pre-Law, Pre-Medicine.

In these minimum pre-professional courses, extending over one or more years, the study of philosophy, so important in the days of confused thought and loose morals, is stressed, that students entering upon professional studies may have well-reasoned convictions on fundamental moral and intellectual truths.

PUBLIC LECTURES

THE INSTITUTE OF CATHOLIC CULTURE affords the students and the general public an opportunity to hear speakers of authority and distinction discuss topics intimately related to Catholic Culture. The Institute meets semi-monthly in the Library.

THE REGIS CURRENT LITERATURE CLUB aims at assisting friends, patrons and students of the College in securing an adequate survey of current literature bearing on philosophy, sociology, history, education, science, literature and religion as it comes from the press in books, pamphlets and magazine articles. The Club meets semi-monthly in the Library.

LOCATION IN DENVER

Regis College is situated in the northwestern section of Denver, the College campus forming a part of the northern city limits. The campus is located between Lowell and Federal Boulevards on the west and east, and between 50th and 52nd Avenues on the south and north, comprising more than eighteen city blocks. The general level of the campus is higher than the surrounding property and thus commands a view of the fertile Clear Creek valley and the majestic range of mountains which encircle Denver on the west and give it distinction as the city of mountain and plain. The climate of Colorado is justly famous. Each year students attend Regis who were unable to carry on their school work elsewhere on account of ill health; but who here successfully carry their studies while making a permanent gain in health.

BUILDINGS

The college buildings are located on a shaded campus of ninety-five acres: **The Administration Building; Lowell Hall; The Gymnasium; The Regis College Stadium; Carroll Hall**, a residence hall in which eighty-two single, well ventilated, steam heated, electric lighted rooms are available for college students. Each room is furnished with bed and bedding, a study table and bookrack, chair, built-in closet, hot and cold water.

LIBRARY

Ample library facilities are provided the students by the College Library, which contains more than 30,000 volumes, including all the standard reference works, and especially excellent departments of philosophy, history, biography, and literature. Nearly one hundred current magazines are kept on file.

During the past few years a special arrangement has been made with the Denver Public Library whereby books required for reference or collateral reading but not included in the college collection may be drawn from the Public Library for an indefinite period. Over 3,500 have been obtained annually in this way under the supervision of the Librarian.

Among the treasures of the library may be mentioned a complete set of the Bollandist's "Acta Sanctorum" in sixty volumes; early editions of the works of Bossuet, Bourdaloue and Massillon, dating back to first decades of the 18th century; the Annals of Henri Spondius, 1609; Works of Plutarch, Paris, 1621; a curious Jvolpium edition of Demosthenes and Aeschinis, 1607; a Roman Missal, Antwerp edition, 1605; Flores Historiarum, Paris, 1601; Annales Ecclesiastici by Card. Caesar Baronius in 12 volumes, the first volumes published in 1593; and a Roman Missal, Salamanca edition, 1587.

The Regis College Review Service, established in 1931, is directed by the Librarian.

LABORATORIES

Standard Biological, Chemical, and Physical laboratories are located in the Administration Building. All necessary and useful apparatus and supplies for general and advanced work are carefully provided.

SEISMIC OBSERVATORY

The Seismic Observatory was established in 1909. The instrument room is located in the Administration Building. It is extremely well protected from changes of temperature, a very important condition for the maintenance of the perfect adjustment of the instruments. The seismograph proper, which rests on a large masonry pier is entirely enclosed in a case of glass and well protected from drafts. The subsoil is the Tertiary shale and sand of the Denver basin.

The Jesuit Seismological Association, which has sixteen stations in the United States, has been lately reorganized. All the stations depend on the Central Station, located at St. Louis University, St. Louis, Missouri. They exchange reports with practically all the stations of the world engaged in seismological research. Through the courtesy of "Science Service," Washington, D.C., the stations exchange telegrams immediately after large quakes have been registered, in order to locate their epicenters as early as possible.

URGENT NEEDS OF REGIS COLLEGE

1. Endowment
2. New Buildings
3. Professorial Foundations
4. Scholarship Foundations
5. Medal and Prize Foundations

ENDOWMENT

Were it not that some twenty-five members of the Society of Jesus, who form the body of the Regis Faculty, receive no salary it would be impossible for the College to carry on its work for young men.

If the College is to continue and advance its important educational work, there is present an urgent need of a large endowment.

NEW BUILDINGS

The following new buildings are needed to give the College the equipment suitable for its educational program:

- A Library Building costing approximately \$100,000.00;
- A Recitation Building costing approximately \$100,000.00;
- A Chapel Building costing approximately \$250,000.00.

PROFESSORIAL FOUNDATIONS

In order that the various departments of instruction may rest on a secure basis and be free from too great attention to finances "Chair Foundations" are a practical necessity. The sum of \$50,000 will found one of these Professorial Chairs in perpetuity. The Founder of one of the Professorial Chairs insures the continuance of instruction in that department and frees the department from its present cramping burden of expense. Regis College is seeking Chair Foundations in all its departments of instruction.

SCHOLARSHIP FOUNDATIONS

Each year numerous applications are received regarding deserving boys who have not sufficient means to pay the usual fees, but who are eager to obtain the advantage of a thorough Catholic education. The financial condition of the school makes it impossible to admit boys free, and positions at the College whereby a student can earn part of his school expenses are limited. Hence an appeal must be made to the numerous and generous friends of Catholic education to provide what are known as scholarships. It is hoped that a number of scholarships of the following kinds will be established soon:

- 1. **Perpetual Scholarships for Boarding Students**
The gift of \$13,000.00 enables the College to take care of a boarding student in perpetuity;
- 2. **Perpetual Scholarships for Day Students**
The gift of \$3,000 will provide for a day student during the existence of the College;
- 3. **Annual Scholarships for Boarding Students**
The gift of \$650 will provide an annual scholarship for a boarding student;
- 4. **Annual Scholarships for Day Students**
The gift of \$150 will provide an annual scholarship for a day student.

Any contribution, however small, to the purpose of scholarships, is acceptable. When the fractional contributions amount to the sum required, it will enable the faculty to announce other scholarships.

MEDAL AND PRIZE FOUNDATIONS

Another method of assisting both faculty and students is the foundation of medals and other prizes. The gift of \$300 will found a medal in perpetuity, and the founder's name will be perpetuated in the annual catalogs. The name of the benefactor will be annually recalled as long as the College survives.

DISCIPLINE

Since the educational system employed by the College includes as one of its prominent features the development of the moral faculties, special attention is given to the training and formation of character. For this reason a closer supervision is exercised over the students than is usual at the present day in most of the larger colleges—as close, in fact, as any dutiful parent could reasonably expect; yet the manner of doing this is such as to exclude every harsh feature.

The authorities take a paternal interest in each student; the professors live with the students, mingle with them constantly, interest themselves in their sports, encourage and direct them in their studies, and in every way assume the relation rather of friend than taskmaster. This constant, familiar, personal communication on kindly terms between professor and student is a powerful means for the formation and uplifting of character.

Consistently with the avowed purpose of the College, the enforcement of rule and discipline, while mild and considerate, is unflinchingly firm, especially where there is question of the good of the student body or of the reputation of the College. The registration of a student is deemed a recognition and acceptance on his part and on the part of his parents or guardian, of the duty of compliance with all the rules and regulations of the College.

The authorities reserve to themselves the right to suspend or dismiss any student whose conduct or influence is unwholesome, or who is not amenable to advice and direction; such a student may be removed from the College, although no formal charge be made against him.

Besides the professors and authorities of the College, to whom the student may have recourse in the difficulties which may beset him, a priest is set aside, whose one duty is to act as counselor to any and all the students in whatever concerns their welfare, but above all in what concerns their conscience and the formation of character. There are many things which arise in the life of a young man at College in which he needs the advice of one who is experienced, and is at the same time ready to give a father's interest to the student. This need is supplied by the Dean of Men.

CAMPUS RESIDENCE

Each student of Regis College must board and room on the College campus, or reside with parents, near relatives or guardian in Denver or its suburbs.

ATTENDANCE

The College year, beginning early in September and ending on Commencement Day in June, comprises at least thirty-six weeks. It is divided into two terms or semesters: the first semester begins on the day set for the opening of College in September; the second semester begins on February 1st. Classes are taught every day of the week except Saturday and Sunday. Classes are taught from 8:00 A.M. to 11:50 A.M., and from 1:00 P.M. to 2:50 P.M., or later, depending on the schedule of studies followed by the individual student. Although Saturday is a full holiday, laboratory periods may be scheduled for Saturday morning.

At Christmas-time there is a recess of about two weeks. At Easter-time a short recess is granted beginning at 3:00 P.M. on Wednesday of Holy Week and ending on the following Tuesday at 9:00 A.M. All Holydays of Obligation are also school holidays. Other holidays are noted on the calendar-page of this bulletin. Students residing at the College and who are in good standing are allowed the following off-campus permissions: First, at the week-end, (a) Students whose homes are in Denver or in the immediate vicinity: from Saturday, 9:00 A.M. to Sunday, 5:30 P.M.; (b) Students from out of Denver: from Saturday, 9:00 A.M. to midnight, and from Sunday, 9:00 A.M. to 5:30 P.M. Second, from 3:00 P.M. to 5:00 P.M. on class days. Third, at the discretion of the Dean.

Absence. Students who are not present at the beginning of a semester, or during the twenty-four hours preceding or following the Christmas, Thanksgiving, or Easter recesses will be marked three absences for each recitation missed. "Cuts" are not allowed. Absences from laboratory courses in excess of one-sixth of the total number for the semester will cancel the registration for the course. For each absence in any subject up to one-tenth of the regular recitation periods for the semester, deductions are made from the **final grade** of the students as computed from the class work and final examinations, as follows: One-half per cent for four-, or five-hour studies; one per cent for one-, two-, or three-hour studies. For each absence in excess of one-tenth of the recitations, twice the above schedule of deduction is made. **Prolonged Absence**, either **with or without excuse**, from twenty per cent or more of the exercises of a given class, in any semester, will require that an extra examination be taken. **All omitted exercises** must be made up within one week after absence, or they will be counted as failures in determining a student's grade. The responsibility in these cases rests with the student.

Delayed Assignments will receive the grade of zero, unless the student has been granted an extension of time by the Dean. **Where work missed has not been made up.** Right to examination in any subject at the end of a semester will be refused (a) to those who have not been present 85 per cent of the class time, or (b) who have not handed in 85 per cent of written assignments in laboratory or other work. **Late-Coming to Class** is regarded as full absence.

QUALITY OF WORK

GRADES

Above Passing	Below Passing
A 93—100, Excellent	E 60—69, Conditioned
B 85— 92, Good	F 0—59, Failed
C 77— 84, Fair	I—Incomplete*
D 70— 76, Passed	W—Withdrawn from class

*A student may be reported Incomplete, if some small portion of his work remains unfinished, provided his standing in the course has been of grade C or higher. To secure credit, this work must be completed within one month after the beginning of the following semester; otherwise the course will be recorded as of grade E.

These grades are not given out to the students by the professors, but are regularly issued from the office of the Dean of the College.

Examinations in all subjects are held at the close of each semester. Partial examinations and written recitations are held from time to time during the semester, with or without previous notice to the students, at the discretion of the instructor. The result of a semester examination, combined with the student's class work (each to count one-half) will determine his grade for the semester.

A condition (E) due to failure in a semester examination may be removed by a supplementary examination, upon recommendation of the department concerned, with the approval of the Dean.

A conditioned student who desires such examination must notify the department concerned one week in advance. He must also notify the Dean on or before the same day. For each subject a fee is charged, payable in advance at the Treasurer's office. Removal of conditions by examinations shall not entitle the student to a grade higher than D.

Conditions may be incurred: (a) by a failure to satisfy the requirements of any course; (b) by exclusion from an examination because of excessive class-room absences; and (c) by absence, due to any cause, on a day appointed for examination.

Conditioned students absent from the regular supplementary examinations must present an excuse satisfactory to the Dean or receive a grade of F for the course.

Any student who desires to remove an Incomplete must first obtain from the Registrar a blank form for presentation to the instructor in charge of the course. This blank, when signed, must be filed with the Registrar within one week from the time of the semester examination. A fee of \$1.00 is charged for blanks obtained after the specified time.

REPORTS

Reports of general scholarships, examinations, and attendance are sent to parents or guardians every quarter, and special reports of individual students will be furnished at any time upon reasonable request.

THE SACRED HEART SCHOLARSHIP

In 1901 the Sacred Heart Scholarship Fund of \$1000 was established anonymously. The income is applied yearly in the form of a partial scholarship to a needy and deserving student.

THE DESAULNIERS SCHOLARSHIP

In 1912 Reverend Joseph Desaulniers established a fund of \$1200. The income is applied yearly in the form of a partial scholarship to a needy and deserving student.

THE GEORGE F. COTTRELL SCHOLARSHIP

Beginning in the year 1928 Mr. George F. Cottrell of Denver, Colorado, has annually donated a scholarship which covers the full amount of tuition for one student for a year.

THE EUGENE HENRY ROURKE MEMORIAL SCHOLARSHIP FUND

In November, 1929, the sisters and heirs of Eugene Henry Rourke, La Junta, Colorado, established this perpetual Scholarship Fund by donating the sum of \$15,000.00 to Regis College. The annual income on this fund, \$600.00, is to be available to needy and deserving students and is to be applied on the expense of tuition.

By establishing the Eugene Henry Rourke Memorial Scholarship Fund, the sisters and heirs of Eugene Henry Rourke have most generously provided for the education of four needy and deserving students at Regis College in perpetuity.

THE FREDERICK G. BONFILS FOUNDATION

Two senior students were reappointed to scholarships at Regis College for 1932-33 by the Frederick G. Bonfils Foundation. Under the conditions of the Foundation satisfactory scholastic progress has merited reappointment yearly until graduation. The scholarships cover tuition; matriculation, laboratory, library, and student fees; textbooks; materials; and all assessments made by the College.

THE WILLIAM J. SCHOLL MEMORIAL SCHOLARSHIP FUND

Mrs. Cecilia K. Scholl of Denver, Colorado, established the William J. Scholl Memorial Scholarship Fund of \$3,000.00 on September 20, 1930, in memory of her son, William J. Scholl. The annual income from this Fund, \$150.00, is to be applied to the education of a needy and deserving student.

THE FATHER PANTANELLA MEMORIAL SCHOLARSHIP FUND

On December 24, 1930, The John K. and Catherine S. Mullen Benevolent Corporation established a perpetual Scholarship Fund in memory of Reverend Dominic Pantanella, S.J., by donating the sum of \$15,000.00 to Regis College. The annual income from this Fund, \$750.00, is to be available to needy and deserving students and is to be applied on the expense of tuition. By establishing the Father Pantanella Memorial Scholarship Fund, the heirs of Mr. and Mrs. John K. Mullen have most generously provided for five needy and deserving students at Regis College in perpetuity.

THE JOSEPH T. WARD MEMORIAL SCHOLARSHIP FUND

Mrs. Catherine Ward of Denver, Colorado, established the Joseph T. Ward Memorial Scholarship Fund of \$2,000.00 on January 26, 1931, in memory of her son, Joseph T. Ward. The annual income from this Fund, \$100.00, is to be applied to the education of a needy and deserving student.

PRIZE AWARDS

Inter-Collegiate English Prize. A purse of \$100.00 is offered yearly by the late Mr. D. F. Bremner, of Chicago, for excellence in English essay writing. The purse is open to competition among the students of the Jesuit Colleges of the Mid-West.

Inter-Collegiate Latin Medal. A gold medal is offered each year by Very Reverend Samuel H. Horine, S.J., Provincial of the Missouri Province of the Society of Jesus, for the best Latin essay from competitors of the colleges of the Missouri Province.

The Champion Physics Medal. The late John F. Champion of Denver, Colorado, founded this medal for the best essay in Physics.

The Anne R. Crean Memorial Medal for Poetry. Mrs. Blanche Crean Carolan of Pittsburgh, Pennsylvania, founded the medal in memory of her mother, Mrs. Anne R. Crean.

The McGettigan Chemistry Awards. A cash award of fifteen dollars is offered for the best essay in Chemistry, and a cash award of ten dollars for the second best essay in Chemistry; founded by Mr. W. J. McGettigan, Denver, Colorado.

The Knights of Columbus Elocution Medal. The medal is donated by the Knights of Columbus, Council 539, Denver, Colorado, for excellence in elocution.

The Monaghan Medal. Daniel G. Monaghan, M.D., of Denver, Colorado, founded the medal for the best paper in Evidences of Religion.

The Monsignor David T. O'Dwyer Medal. Monsignor David T. O'Dwyer of Washington, D.C., founded this medal for the best essay on some subject connected with the Constitution of the United States of America.

The Sullivan English Medal. The late Mr. Dennis Sullivan of Denver, Colorado, founded the medal for the best English Essay.

The J. Richard Stanko Memorial Medal. Mr. Joseph A. Stanko of Pueblo, Colorado, donated this medal in memory of his son, for the best oration, composition and delivery considered, on Catholic Education.

The Mary J. Ryan Memorial Medal. This medal is awarded annually for the best work in the class of Accounting.

The Class of 1929 Biology Medal. This medal was founded by the members of the graduating class of 1929 for the best essay in Biology.

The Van Zant Memorial Award. This award, a valuable strap watch, is donated annually by Charles Van Zant, Denver, Colorado, in memory of his father, Ellis H. Van Zant. The award is given for character. The winner is determined by a committee of seniors who choose the graduate whom they consider most deserving.

The Bishop Vehr Medal. In order to encourage the study of Apologetics and to secure some thought from the student body concerning the best ways and means whereby a Catholic man can develop an interest among non-Catholics in the teachings and tenets of the Church, his Excellency, Rt. Rev. Urban J. Vehr, D.D., Bishop of Denver, donates a medal annually for the best essay on this phase of Catholic Action.

HONORS

The honors awarded at the end of a year are determined by the combined results of class-work and examinations, each counting fifty per cent. Those who maintain an average of 90% or above throughout the year merit the distinction of First Honors. An average of 85% to 90% entitles a student to Second Honors. Students who register late, or whose attendance is not satisfactory, will be ineligible for Class Honors.

EXPENSES

All remittances should be made payable to "Regis College."
 Tuition for One College Year.....\$150.00

Tuition includes all activity fees, except The Ranger (annual) for which the Student Council assesses each student \$5.00. This is collected by the College at registration.

Board for One College Year.....\$300.00
 (Board includes ordinary medicines)

Private Room for One College Year.....\$100.00

These are fixed charges and are payable in advance in quarterly installments: September 15th, November 15th, February 1st, April 1st.

SPECIALS

Matriculation fee (Payable the first year only).....\$ 5.00

Laboratory Fees:

Biology 15.00

Chemistry 15.00

Drawing 10.00

Physics 15.00

Breakage Deposit (returnable) in Biology, Chemistry,
 and Physics 5.00

Music: Lessons at rates charged by Professor.

Use of Instruments..... 20.00

Late Registration fee..... 2.00

Conditioned Examination on the regular day assigned..... 1.00

Conditioned Examination on days other than those assigned 2.00

Detailed Duplication Certificate of Scholarship..... 1.00

Detailed Certificate of Scholarship on late application..... 5.00

Diploma of Graduation..... 10.00

Private Room Breakage deposit (returnable)..... 10.00

Rental for rooms is payable in advance and a deposit of \$10.00 is required at the time of engaging the room. The deposit is not returned in case of failure to occupy the room. This deposit is not applied to room rent, but is kept to cover any damage beyond reasonable wear which may be done to the room or its furnishings while occupied by the student. The balance is returned at the end of the year.

All books are sold on strictly cash basis. Each student should be supplied with funds (which may be left on deposit with the Treasurer) to meet such current expenses. The average cost

for books amounts to about \$20.00 for the first half of the year, and \$5.00 additional for the second half. The student alone will be responsible to parents or guardians for an itemized statement of expenditures.

No student may take a semester examination, regular or conditioned, or receive any degree, diploma, or statement of credits, until his financial accounts are satisfactorily settled. No deduction on account of late arrival in either term will be made for a period of less than one month. If a student is withdrawn before the end of a quarter, no refund will be made. Should a student leave owing to a prolonged illness or be dismissed for any cause, a deduction will be allowed for the remainder of the quarter, beginning with the first of the following month. No expenditure for clothing or incidental expenses of any student will be made by the College, unless an equivalent sum is deposited with the Treasurer. Books, stationery, and toilet articles are sold by the College at current prices.

The College will not be responsible for any article of clothing or for books left behind by a student when leaving the College; much less for the loss of any article while in his keeping.

EMPLOYMENT

Such employment as the College is able to offer to students is reserved to those who board at the College and who need such help to defray their regular expenses. Generally positions are given to students of the previous year by preference. Application for board should reach the College Treasurer as early as possible, since the number of positions open to students is limited. Boarding students will be allowed to take employment off campus with approval of the Dean.

STUDENT ASSISTANT SCHOLARSHIPS

The following partial scholarships are available to students of good conduct who maintain a class average of 85% and qualify as student assistants. Any collegian is eligible, but applications will be considered in order of seniority and previous incumbency.

First, Department of Chemistry: Three scholarships, laboratory assistants. Value: \$170.00, \$150.00 and \$100.00 respectively.

Second, Department of Physics: Two scholarships; laboratory assistants. Value: \$100.00 each.

Third, The Regis Library: Five scholarships; library assistants. Value: \$125.00 each.

Fourth, Miscellaneous Scholarships: Student Assistants to the number of six. Value: \$100.00 each.

REGISTRATION

New students must make application for admission to the Dean. A student will not be registered without official entrance records. Students entering from other colleges should first see the Chairman of the Committee on Advanced Standing.

Former students in good standing, after having paid their fees, will proceed to the Dean to arrange their schedule for the semester.

TESTIMONIALS AND CREDENTIALS

All applicants for admission to the College must present satisfactory testimonials of good moral character. A student entering from another college or institution of collegiate rank must furnish from such institution a certificate of honorable dismissal before his credentials for scholarship will be examined by the Entrance Board. Such certificates and credentials of scholarship are not to be presented by the student, but must be mailed to the Dean directly from the School or College issuing them; and they must reach the Dean, before the student will be given full registration.

ENTRANCE REQUIREMENTS

15 units from a four-year high school

12 units from a "senior" high school

Candidates for admission to freshman year must present entrance credits amounting to fifteen units representing four years of high school work, or twelve units representing three years' work in **senior** high school, that is, in the tenth, eleventh, and twelfth grades, respectively, as these are administered in "senior high schools."

A unit is a series of recitations or exercises in a given subject pursued continuously throughout the school year. The number of class exercises required in a week for each unit shall, in general, be five. Double periods are required for laboratory courses.

Not less than a full unit will be accepted in the first year of any language. Half-units will be accepted, but only when presented in addition to integral units in the same subject, or in half year subjects which constitute a complete course in themselves, e.g., Solid Geometry. Any two of the biological sciences (Physiology, Botany, Zoology) may be combined into a continuous year's course equal to one unit.

Conditions. A condition or deficiency of not more than one unit will be allowed to a candidate ranking above the lowest quarter of his high school class; but no condition is allowed in the prescribed English, beginning Algebra, or Plane Geometry. The work of the Freshman year must be so arranged as to remove the condition or deficiency.

I. PRESCRIBED ENTRANCE REQUIREMENTS FROM A FOUR-YEAR HIGH SCHOOL

For the A.B. Course

Units are required as follows: English 3, History 1, *Latin 4, Mathematics 2, Science 1, Electives 4.

For the B.S. Course

Units are required as follows: English 3, *Foreign Language 2, History 1, †Mathematics 2.5, Science 1, Electives 5.5.

For the B.S. in Commerce Course

Units are required as follows: English 3, *Foreign Language 2, History 1, Mathematics 2, Science 1, Electives 6.

For the Ph.B. Course

Units are required as follows: English 3, *Foreign Language 2, History 1, Mathematics 2, Science 1, Electives 6.

II. PRESCRIBED ENTRANCE REQUIREMENTS FROM A "SENIOR HIGH SCHOOL"

For the A.B. Course

Units are required as follows: English 2, History 1, *Latin 3, Plane Geometry 1, Science 1, Electives 4.

For the B.S. Course

Units are required as follows: English 2, *Foreign Language 2, History 1, Mathematics 1.5, Science 1, Electives 4.5.

For the B.S. in Commerce Course

Units are required as follows: English 2, *Foreign Language 2, History 1, Plane Geometry 1, Science 1, Electives 5.

For the Ph.B. Course

Units are required as follows: English 2, *Foreign Language 2, History 1, Plane Geometry 1, Science 1, Electives 5.

III. ELECTIVES

The Electives may be any subjects counted towards graduation in any accredited or recognized high school, with the following restrictions: No subject may be presented for less than a half unit of credit; not more than one unit will be accepted in any vocational subject; vocal music and physical training will not be recognized as entrance units.

*Students presenting the full number of acceptable units without the prescribed units in Latin or in modern language will be allowed to make up these requirements in college.

†Candidates for the B.S. degree who present the full number of units, but lack one half unit in Mathematics, may be admitted with the obligation of supplying the half unit during the Freshman year.

METHODS OF ADMISSION

ADMISSION BY CERTIFICATE

Admission by certificate without examination is granted to students from approved secondary schools as follows:

1. Regis High School;
2. Secondary schools accredited by any recognized standardizing agency;
3. Secondary schools accredited by the University of Colorado;
4. High schools of the first grade in other states, which are so rated by the State Superintendent of Public Instruction;
5. Private schools and academies, not on any list, but approved, after investigation, by a vote of the faculty of Regis College.

Credentials which are accepted for admission become the property of the College and are kept permanently on file. All credentials should be filed with the Dean. They should be mailed at least one month before the beginning of the semester, in order to secure prompt attention. Compliance with this request will save applicants much inconvenience.

Certificates must be made out and signed by a recognized officer of the school and mailed by him directly to the Registrar.

No certificate will be accepted unless the holder has spent the last year of his high school course in the school issuing the certificate. A catalog of the school, if published, describing the course of study in detail, should accompany the certificate.

It is expected that the Principal will recommend not all graduates, but only those whose ability, application, and scholarship are so clearly marked that the school is willing to stand sponsor for their success at college.

The certificates should fully cover the entrance requirements of the College. Admission on school certificates is in all cases provisional. If after admission to the College, a student fails in any subject for which a school certificate was accepted, credit for that subject may be cancelled.

ADMISSION BY EXAMINATION

Applicants who are not entitled to enter on certificates must take the entrance examinations in the entire number of required units. These examinations are held during the last week in June and the first week in September. The applicant may divide the examination into two parts, taking as many as possible in June and the remainder in September. An examination in which the applicant has failed in June may be taken again in September.

ADMISSION TO ADVANCED STANDING

Candidates for admission from other institutions of College rank which offer the same or equal courses of study as those at Regis College, will be granted the same standing as at the former institutions upon presenting in advance of registration:

1. A certificate of honorable dismissal;
2. An official transcript of college credits, with specifications of courses and years when taken, hours, and grades;
3. An official, certified statement of entrance credits and conditions, showing the length of each course in weeks, the number of recitations and laboratory exercises each week, the length of recitation, and the mark secured;
4. A marked copy of the catalog of the college previously attended, indicating the courses for which credit is desired.

No student will be admitted to the College as a candidate for a degree after the beginning of the first semester of the Senior year.

College credit for work done in a secondary school in excess of the requirements for admission can be given only on examination provided through the Dean's office, and on the basis of four semester hours of credit for one unit of high school work.

SPECIAL STUDENTS

Mature and earnest students who lack the required entrance units or who wish to pursue particular studies without reference to graduation, may be admitted with the permission of the Dean, to such courses of their own choice as they seem qualified to undertake.

The work thus done by special students cannot be counted later on toward a degree at Regis College unless all entrance requirements have been satisfied.

CLASSIFICATION OF STUDENTS

Those students are ranked as:

Freshmen, who have fifteen or more acceptable high school units;

Sophomores, who have at least twenty-four credit hours and have completed the prescribed courses of freshman year;

Juniors, who have fifty-six credit hours and have completed the prescribed courses of the sophomore year;

Seniors, who have ninety-two credit hours and have completed the prescribed courses of the junior year.

No student will be considered a candidate for graduation if he has any deficiency at the beginning of the second semester of the Senior year.

STUDENT ADVISERS

Students are assigned to general advisers in the first semester of the freshman year. The adviser must be retained throughout the student's course, unless special permission is obtained to change. During the time of registration the advisers keep office hours. The Dean of the College is Chairman of the Board of Advisers, and is temporarily general adviser for all freshmen and all new students admitted with advanced standing.

TRANSCRIPT OF RECORDS

Students wishing transcripts of records in order to transfer from this College to another, or for other purposes, should make early and seasonable application for the same. No such statements will be made out during the busy periods of examination and registration, September 1st to 15th, January 15th to February 7th, and June 1st to June 15th. When such transcripts are urgently needed at these times, they may be had, on a representation of the fact to the Dean, for the payment of \$5.00 in advance to the Treasurer. In no case will such transcripts be given to students themselves, but, in accordance with the accepted practice, transcripts will be sent to the College or University which the student plans to enter.

DEGREES

The following degrees are conferred:

A.B., Bachelor of Arts;

B.S., Bachelor of Science;

B.S. (Comm.), Bachelor of Science in Commerce;

Ph.B., Bachelor of Philosophy.

The degree of Bachelor of Arts is conferred if the candidate's curriculum has included two years of college Latin.

The degree of Bachelor of Science is conferred on candidates whose chief work has been in Science or Mathematics.

The degree of Bachelor of Science in Commerce is conferred on one who has followed the Commerce and Finance curriculum, wherein the student's chief attention is given, especially during junior and senior years, to courses in Business Administration.

The degree of Bachelor of Philosophy is conferred on candidates whose chief work has been in one or two of the following departments: Economics, Education, English Literature, History, Philosophy.

Diplomas are graded as "cum laude," "magna cum laude," "summa cum laude," according to scholarship. "Summa cum laude" rank is fixed at A (93%-100%), "magna cum laude" at B (85%-92%), "cum laude" at C (77%-84%). These honors are inscribed on the diplomas of the recipients and appear in the published list of graduates in the annual catalog.

REQUIREMENTS FOR THE BACCALAUREATE DEGREES

The conditions for the Baccalaureate degrees are the following:

1. The satisfactory completion of the four-year course leading to the degree for which the student is a candidate;
2. A written thesis approved by the Dean of the College and presented on or before March 15th of the year in which the degree is expected to be conferred;
3. All work in order to be accepted in fulfillment of any requirement for the degree must be completed with Grade D (70-76) or over, and the average mark of the work must be of grade C (77-84) or above;
4. A fee of ten dollars payable in advance.

REQUIREMENTS FOR GRADUATION

AMOUNT OF WORK

In order to receive a degree, a student is required to complete 128 semester hours of work, three-fourths of which must be of C grade or better.

The requirements for graduation include:

1. A certain amount of prescribed work, especially in the freshman and sophomore years;
2. A major and two minors, to be taken chiefly during the junior and senior years;
3. Free electives, which afford opportunity either for broader culture or for greater specialization as the student may choose;
4. At least the senior year in attendance at Regis College.

The semester hour is the unit or standard for computing the amount of a student's work. A semester hour is defined as one lecture, recitation or class exercise, one hour in length per week, for one semester. Two hours of laboratory work are equivalent to one recitation hour. Two hours of preparation on the part of the student are required for each hour of lecture or recitation.

Regular work for Freshmen is sixteen hours per week. For all others it may be from fifteen to eighteen hours. No candidate for a degree will be allowed to register for fewer than sixteen hours of work.

No freshman may register for more than sixteen hours without special permission of the faculty, and such registration is not allowed to any student in his first semester attendance.

In case of students of longer attendance, the Dean may grant permission to take studies up to eighteen hours a week after the standing of the student in each study of the semester is examined and found to be B (85) or over.

Students who drop a study without permission will be marked F on the Registrar's books. If a student is permitted at his own request to drop a course after attending the class for five weeks or more, he will be given a grade F, which will become a part of the permanent records just as if he had failed at the end of the course.

No credit will be granted to any student for more than forty hours in any department, including credits earned in the freshman year, except:

1. When a student is writing a thesis, he may count in addition to the forty hours, the hours of the course in which he does this thesis work;
2. In the department of English, a student may take forty hours in addition to Rhetoric 1—2.

TEACHER-TRAINING

The courses in Education offered by the College, supplementing the A.B., B.S., and Ph.B. degrees, meet the standard requirements for teaching in high schools.

DEGREE GROUP REQUIREMENTS

A candidate for a bachelor's degree must complete a major in at least one department, and a minor in each of two other departments; one of which is correlated to the major, the other, a free or unrestricted minor.

The various subjects of instruction are as follows:

Group I	Group II	Group III	Group IV
English	Economics	Biology	Accounting
French	Education	Chemistry	Business Economics
German	History	Mathematics	Finance
Greek	Philosophy	Physics	Merchandising
Latin			
Spanish			

N. B.—For the A.B. degree the Major study must be selected from Group I, II, or III. For the B.S. degree the Major study must be selected from Group III. For the B.S. in Commerce degree the Major study must be selected from Group IV.

Major. Each student, before the end of the sophomore year, must elect courses from some one department, to be known as his major, which must comprise twenty to thirty semester hours.

A major may be changed only by the consent of the Dean and of the heads of the departments concerned.

Minor. A minor consists of not less than twelve hours in one department. The correlated minor must be chosen from the same group as the major; the unrestricted minor may be chosen from any one of the remaining groups.

ELECTIVES

Courses not taken (a) as prescribed courses and (b) not included in the student's major and minor sequences may be chosen as free electives to complete the 128 credit hours required for graduation.

In the choice of electives, each student must be guided by his prospective future work. He must ascertain, moreover, that such courses are open to his class, that he has fulfilled the prerequisites, and that there will be no conflict in the schedule of recitations or laboratory periods.

First year courses in a foreign language will not be accepted for credit toward a degree unless followed by a second year course in the same language.

Elections for the second term must be filed by members of the upper classes with the Dean on or before January 15th, and for the first term on or before May 15th.

REFERENCE STUDY AND RESEARCH

1. Students taking courses in Philosophy shall prepare and submit each month a paper of 2,000 words dealing with the development of some specific topic of the subject-matter treated in class.

2. Students taking courses in History and Social Sciences will be required to hand in two papers each semester. These papers are to contain not less than 1,800 words; and at least one of the four papers thus submitted during the year should give unmistakable signs of original research, preferably in some local Catholic subject.

3. All such and other prescribed written assignments will be held to strictly as prerequisites for graduation, for the fulfillment of which no student will be allowed any extension of time beyond the 15th of April of his senior year.

All applicants for a degree should file their application and present all their credits on or before the 15th of April.

MINIMUM PRE-MEDICINE CURRICULUM

Regis College, together with the leaders in medical education, strongly urges a four-year college education for all students preparing to study medicine. However, the College admits students to a two-year program of preparation for medical schools. This Minimum Pre-Medicine Curriculum satisfies the entrance requirements of standard medical schools. It also gives the student Junior standing should he decide to study for an Arts College degree.

MINIMUM PRE-DENTISTRY CURRICULUM

The minimum requirement for admission to any acceptable dental school, besides the usual fifteen units of credit in high school work, is thirty semester hours of collegiate preparation. Regis College advises four years of college work. However, it accepts students in a one-year, or two-year program of pre-dental studies, which satisfies the entrance requirements of approved dental schools. The Minimum Pre-Dental Curriculum also gives the student Sophomore standing should he decide to study for an Arts College degree.

MINIMUM PRE-LAW CURRICULUM

The minimum requirement for admission to most law schools, in addition to high school work, is sixty-four semester hours of collegiate training. Regis College advises four years of college work. However, it accepts students for a shorter program of preparation for law schools. This Minimum Pre-Law Curriculum also gives the student Junior standing should he decide to study for an Arts College degree.

MINIMUM PRE-ENGINEERING CURRICULUM

While schools of engineering will admit students who present a satisfactory set of high school credits, college preparation is profitable. Regis College advises four years of college work. However, it accepts students in a one-year program of pre-engineering studies. This Minimum Pre-Engineering Curriculum gives the student Sophomore standing should he decide to study for an Arts College degree.
