are divided into two semesters of eighteen weeks each. There is a Christmas and an Easter recess. Legal holidays and all holydays of obligation are observed.

## REPORTS

Reports of scholarship and general progress are sent to parents or guardians at every quarter. Semester grades are determined by the result of the semester examination combined with the student's class work during the semester.

## STUDENT COUNSELORS

The principal objective of professors is the betterment of students. This objective is especially attainable through the personal contacts possible in a small liberal arts college. For their effective guidance, students are assigned to counselors whose interests follow lines of study chosen by the students. These counselors and the Dean of Men are qualified to assist the student in solving his problems.

---

## TUITION AND FEES

Payment of tuition and fees is to be made in quarterly installments: September 15, November 15, February 1, April 1. Students should come prepared to defray the first part of their expenses at the time of registration.

In the case of resident students, no deduction on account of late arrival in either term will be made for a period of less than one month. If a student is withdrawn before the end of a quarter, no refund will be made. Should a student leave, owing to a prolonged illness or be dismissed for any cause, a deduction will be allowed for the remainder of the quarter, beginning with the first of the following month.

In case a day student withdraws from the College during the first ten days of instruction, the total amount of tuition and fees will be refunded. After ten days and before the quarter, a rebate of one-half the tuition and fees will be made. After the quarter, no rebate will be allowed.

No student may take a semester examination, regular or conditioned, or receive any degree, diploma, or statement of credits, until his financial accounts are satisfactorily settled.

All remittances should be made payable to "Regis College."

## ADMISSION

---

### REGISTRATION

New students must make application for admission to the Dean. A student will not be registered without official entrance records.

### TESTIMONIALS AND CREDENTIALS

All applicants for admission must present satisfactory testimonials of good moral character. A student entering from another college or institution of collegiate rank must furnish from such institution a certificate of honorable dismissal before his credentials for scholarship will be examined. Such certificates and credentials of scholarship are not to be presented by the student, but must be mailed to the Dean directly from the School or College issuing them; and they must reach the Dean before the student will be given full registration.

### ENTRANCE REQUIREMENTS

Candidates for admission must present fifteen acceptable units.

A unit course of study is defined as a course covering a school year of not less than thirty-six weeks, with five periods of at least forty-five minutes each per week, two periods of manual training, drawing, or laboratory work being equivalent to one period of classroom work.

No quantitative deficiencies are permitted. Half units will be accepted only when presented in addition to integral units in the same subject, or in half year subjects which constitute a complete course in themselves. Not less than two units of any language will be accepted toward entrance either as a language requirement or as an elective. Physical training, orchestra, glee club, and rhetoricals; composite units made up of fractions of less than one-half; and all credits of an extra-curricular nature, will not be accepted.

## I. PRESCRIBED ENTRANCE REQUIREMENTS FROM A FOUR-YEAR HIGH SCHOOL

### For the A.B. Course

Units are required as follows: English 3, History 1, \*Latin 4, Mathematics 2, Science 1, Electives 4.

### For the B.S. Course

Units are required as follows: English 3, \*Foreign Language 2, History 1, †Mathematics 2.5, Science 1, Electives 5.5.

### For the B.S. in Commerce Course

Units are required as follows: English 3, \*Foreign Language 2, History 1, Mathematics 2, Science 1, Electives 6.

### For the Ph.B. Course

Units are required as follows: English 3, \*Foreign Language 2, History 1, Mathematics 2, Science 1, Electives 6.

---

## II. PRESCRIBED ENTRANCE REQUIREMENTS FROM A "SENIOR HIGH SCHOOL"

### For the A.B. Course

Units are required as follows: English 2, History 1, \*Latin 3, Plane Geometry 1, Science 1, Electives 4.

### For the B.S. Course

Units are required as follows: English 2, \*Foreign Language 2, History 1, Mathematics 1.5, Science 1, Electives 4.5.

### For the B.S. in Commerce Course

Units are required as follows: English 2, \*Foreign Language 2, History 1, Plane Geometry 1, Science 1, Electives 5.

### For the Ph.B. Course

Units are required as follows: English 2, \*Foreign Language 2, History 1, Plane Geometry 1, Science 1, Electives 5.

---

## III. ELECTIVES

The Electives may be any subjects counted towards graduation in any accredited or recognized high school, with the following restrictions: No subject may be presented for less than a half unit of credit; not more than one unit will be accepted in any vocational subject; vocal music and physical training will not be recognized as entrance units.

\*Students presenting the full number of acceptable units without the prescribed units in Latin or in modern language will be allowed to make up these requirements in college.

†Candidates for the B.S. degree who present the full number of units, but lack one half unit in Mathematics, may be admitted with the obligation of supplying the half unit during the Freshman year.

## METHODS OF ADMISSION

---

### ADMISSION BY CERTIFICATE

Admission by certificate without examination is granted to students from approved secondary schools as follows:

1. Regis High School;
2. Secondary schools accredited by any recognized standardizing agency;
3. Secondary schools accredited by the University of Colorado;
4. High schools of the first grade in other states, which are so rated by the State Superintendent of Public Instruction

Credentials which are accepted for admission become the property of the College and are kept permanently on file. All credentials should be mailed at least one month before the beginning of the semester, in order to secure prompt attention. Compliance with this request will save applicants much inconvenience.

Certificates must be made out and signed by a recognized officer of the school and mailed by him directly to the Registrar.

No certificate will be accepted unless the holder has spent the last year of his high school course in the school issuing the certificate. A catalog of the school, if published, describing the course of study in detail, should accompany the certificate.

It is expected that the Principal will recommend not all graduates, but only those whose ability, application, and scholarship are so clearly marked that the school is willing to stand sponsor for their success at college.

The certificate should fully cover the entrance requirements of the College. Admission on school certificates is in all cases provisional. If, after admission to the College, a student fails in any subject for which a school certificate was accepted, credit for that subject may be cancelled.

### ADMISSION BY EXAMINATION

Applicants who are not entitled to enter on certificates must take the entrance examinations in the entire number of required units. These examinations are held during the last week in June and the first week in September. The applicant may divide the examination into two parts, taking as many as possible in June and the remainder in September. An examination in which the applicant has failed in June may be taken again in September.

### ADMISSION TO ADVANCED STANDING

Candidates for admission from other institutions of College rank which offer the same or equal courses of study as those at Regis College, will be granted the same standing as at the former institutions upon presenting in advance of registration:

1. A certificate of honorable dismissal;

2. An official transcript of college credits, with specifications of courses and years when taken, hours, and grades;

3. An official, certified statement of entrance credits and conditions, showing the length of each course in weeks, the number of recitations and laboratory exercises each week, the length of recitation, and the mark secured.

No student will be admitted to the College as a candidate for a degree after the beginning of the first semester of the Senior year.

## SPECIAL STUDENTS

Mature and earnest students who lack the required entrance units or who wish to pursue particular studies without reference to graduation, may be admitted with the permission of the Dean, to such courses of their own choice as they seem qualified to undertake.

The work thus done by special students cannot be counted later on toward a degree at Regis College unless all entrance requirements have been satisfied.

## DEGREES

The following degrees are conferred:

A.B., Bachelor of Arts;

B.S., Bachelor of Science;

B.S. (Comm.), Bachelor of Science in Commerce;

Ph.B., Bachelor of Philosophy.

The degree of Bachelor of Arts is conferred if the candidate's curriculum has included two years of college Latin.

The degree of Bachelor of Science is conferred on candidates whose chief work has been in Science or Mathematics.

The degree of Bachelor of Science in Commerce is conferred on one who has followed the Commerce and Finance curriculum, wherein the student's chief attention is given, especially during junior and senior years, to courses in Business Administration.

The degree of Bachelor of Philosophy is conferred on candidates whose chief work has been in one or two of the following departments: Economics, Education, English Literature, History, Philosophy.

## REQUIREMENTS FOR GRADUATION

In order to receive a degree a student is required to complete 128 semester hours, three-fourths of which must be of C grade or better. A semester hour is defined as one lecture, recitation or class exercise, one hour in length per week, for one semester. Two hours of laboratory work are equivalent to one recitation hour. Two hours of preparation on the part of the student are required for each hour of lecture or recitation.

A written thesis, approved by the Dean, must be presented on or before April 1st of the year in which the degree is expected to be conferred.

No student will be considered as a candidate for graduation if he has any deficiency at the beginning of the second semester of the Senior year.

### AMOUNT OF WORK

The regular schedule for Freshmen is sixteen hours per week. For all others it may be from fifteen to eighteen hours. No candidate for a degree will be allowed to register for fewer than sixteen hours of work.

In case of students of longer attendance, the Dean may grant permission to take studies up to eighteen hours a week after the standing of the student in each study of the semester is examined and found to be B (85) or over.

### CREDIT, DROPPING COURSES

IN ORDER TO RECEIVE CREDIT FOR ANY COURSE, A STUDENT MUST BE DULY REGISTERED FOR THE SAME WITH THE DEAN.

During the first two weeks of a semester, a student may drop a course upon the approval of the Dean. After that time, a formal petition is sent to the instructor concerned, and a course may be dropped only if an elective course, if at the time of dropping, the work is above passing, and if the registration is not reduced below twelve hours. Otherwise a student may not drop a course without receiving a discredit.

Candidates for graduation must attend any course of lectures, or any other exercises that have been or may be authorized and equipped by the faculty, even though such courses receive no value in credits.

DEGREE GROUP REQUIREMENTS

A candidate for a bachelor's degree must complete a major in at least one department, and a minor in each of two other departments; one of which is correlated to the major, the other, a free or unrestricted minor.

The various subjects of instruction are as follows:

Group I	Group II	Group III	Group IV
English	Economics	Biology	Accounting
French	Education	Chemistry	Business Economics
German	History	Mathematics	Finance
Greek	Philosophy	Physics	Merchandising

N. B.—For the A.B. degree the Major study must be selected from Group I, II, or III. For the B.S. degree the Major study must be selected from Group III. For the B.S. in Commerce degree the Major study must be selected from Group IV.

**Major.** Each student, before the end of the sophomore year, must elect courses from some one department, to be known as his major.

**Minor.** The correlated minor must be chosen from the same group as the major; the unrestricted minor may be chosen from any one of the remaining groups.

# COURSES PRELIMINARY TO PROFESSIONAL STUDIES

---

## GENERAL STATEMENT

Students who intend to pursue professional studies after completing the required collegiate work are urged to take a course leading to a Bachelor's degree. Schools of law and medicine have increased their entrance requirements, so that a longer period of collegiate preparation is necessary. A Catholic professional man will need to have studied Philosophy from the Catholic viewpoint.

The entrance requirements for admission to the curricula preparatory to professional studies are the same as those required for admission to the degree courses.

## MINIMUM PRE-MEDICINE REQUIREMENTS

The minimum requirement for admission to medical schools is sixty semester hours of collegiate work, or a two-year program. In view of recent changes, it is better to plan at least a three-year program including Chemistry, Physics, Biology, English Rhetoric, Composition, and Literature, German or French.

## MINIMUM PRE-DENTISTRY REQUIREMENTS

The minimum requirement for admission to any acceptable dental school is thirty semester hours or one year of collegiate preparation.

## MINIMUM PRE-LAW REQUIREMENTS

The minimum requirement for admission to most law schools is sixty-four semester hours or two years of collegiate training. This training will generally include English, French, German or Spanish, History, Public Address, Mathematics, Social Science, and Philosophy.

## MINIMUM PRE-ENGINEERING REQUIREMENTS

While schools of engineering will admit students who present a satisfactory set of high school credits, college preparation is profitable. Regis College accepts students in a program of pre-engineering studies. These studies include English, Mathematics, Science, Engineering Drawing, and Philosophy.
