Newsletter of the Colorado Native Plant Society

"... dedicated to the appreciation and conservation of the Colorado native flora"

Volume 23 Number 6

November—December 1999

More CONPS Workshops Announced for 1999 - 2000 Bill Jennings, CoNPS Workshop Committee

The Colorado Native Plant Society is proud to present the following additional workshops, which bring native plant lovers together with a well-informed instructor. To register for workshops, please call (303) 665-6903 and leave a message on the answering machine. You may also register by writing Bill Jennings, P.O. Box 952, Louisville, CO 80027. Regardless, be sure to provide your name, address, telephone number (including area code), and which workshops you wish to attend. If multiple sessions are scheduled, be sure to indicate preference. Receipt of your registration request will be acknowledged within a few days.

About ten days prior to the workshop, registrants will receive notice by mail regarding location, time, lunch, references, and supplies, with a list of other registrants to encourage carpooling. The fee for each workshop is \$12 for CoNPS members and \$24 for non-members (\$12 for the workshop, plus \$12 to join CoNPS). Members of native plant societies from neighboring states are considered members of CoNPS for the purpose of workshop registration. Payment is made on the day of the workshop.

Workshops have been very popular in the past, with multiple sessions frequently scheduled to meet demand, or with long waiting lists for the seats available. However, no-shows have been a problem. There are only so many seats available in the classrooms and labs in which these workshops are held, and we are holding a seat for you. If you find that you CANNOT attend a workshop for which you have registered, please call and cancel your registration as soon as possible!

WILLOWS OF THE ROCKY MOUNTAINS

Leader: Dr. Robert Dorn

Location: CSU, Zoology/Anatomy Building

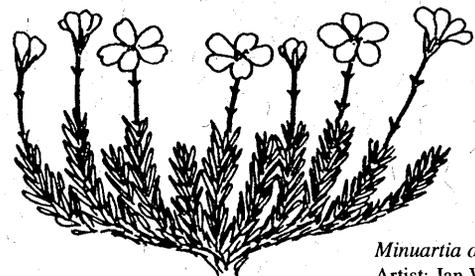

First session: Saturday, January 15, 2000

Second session: Sunday, January 16, 2000

The previously scheduled workshop on the Hydrophyllaceae has been canceled due to illness in workshop leader Duane Atwood's family. It will be rescheduled for 2000-2001. In its place, we have scheduled a workshop on willows (genus *Salix*). Dr Robert Dorn

received his doctorate from the University of Wyoming, where his research was on section *Cordatae* of the genus. Dr. Dorn is author of *Field Guide to Willows of the Rocky Mountain Region*. In this workshop, we will discuss willow identification, species relationships, distributions, and ecology. If you previously registered for Hydrophyllaceae, you are automatically registered for willows.

NOTICE: Both sessions of the Asteraceae, Botanical Detective, Willows, and *Carex* workshops are currently full. We have asked our instructors to consider extra sessions to accommodate the demand. David Buckner, Bill Jennings, and Leo P. Bruederle have agreed to do additional sessions of their respective workshops, and we have secured Foothills Nature Center for some of those. Plans are not yet finalized, so stay tuned for further developments regarding workshops. Most persons currently on the wait list will eventually get into the workshops they have requested.

POLEMONIACEAE OF COLORADO

Leader: Dr. J. Mark Porter

Location: Foothills Nature Center, Boulder

First session: Saturday, February 26, 2000

Second session: Sunday, February 27, 2000

Our second out-of-state workshop leader is Dr. J. Mark Porter of Rancho Santa Ana Botanic Gardens in Claremont, California. He has been actively involved in the development of the new San Juan Basin Flora, as well as research on the Polemoniaceae of the Four Corners area. The waiting list for Dr. Porter's last workshop was so long that we have asked him to return. And he has much new, exciting information on this family to present. Those on last year's waiting list will be given registration preference.

COLORADO FERNS

Leader: Peter Root

Location: Foothills Nature Center, Boulder

First session: Saturday, March 18, 2000

Second session: Sunday, March 19, 2000

Peter Root (Denver Botanic Gardens) has been studying the ferns for many years, particularly those in the genus *Botrychium*. In this workshop, Peter will provide an overview of the ferns of Colorado and the environments they occupy. There are around 50 species of these interesting plants in Colorado, occurring from the high mountains to rocky breaks on the Plains and from wet to very dry habitats. Learn how to recognize the ferns at this workshop.

THE CARYOPHYLLACEAE

Leader: Dr. Ronald L. Hartman

Location: Foothills Nature Center, Boulder

First session: Saturday, April 8, 2000

Second session: Sunday, April 9, 2000

Dr. Ronald L. Hartman, Professor and Rocky Mountain Herbarium Curator (University of Wyoming), will be our third out-of-state leader. A fixture in Rocky Mountain botany, he is best known for his work on the Apiaceae. The Caryophyllaceae (including Alsiniaceae) is his "second-favorite" family. Dr. Hartman will discuss those genera occurring in Colorado and Wyoming, emphasizing problematic genera, such as *Silene*, *Paronychia*, *Cerastium*, *Sagina*, *Arenaria*, and *Minuartia*. Keys and specimens will be provided. Results of recent taxonomic research will also be presented.

WILDFLOWER PHOTOGRAPHY

Leader: Robert Epley

Location: Foothills Nature Center, Boulder

First session: Saturday, April 29, 2000

Second session: Sunday, April 30, 2000

Robert Epley, a professional photographer from Beulah, enjoys wildflower photography and has published several articles on the subject. He will present the techniques he uses to take appealing photographs and to record plant information. He will discuss equipment and film, lighting, and composition. Participants should bring the camera they normally use, and one or two rolls of their favorite film. After lunch, participants will go into the field to apply their new knowledge and to enjoy one-on-one sessions with a professional.

Yuletide Ramblings of an Ethnobotanist

Don and Clem¹

It's the holiday season once again! Although our memories of the Thanksgiving *Cucurbita moschata* pie, *Vaccinium macrocarpon* sauce, *Dioscorea trifida* and *Ipomoea batatas* tubers are still with us, we have begun to focus more on the traditional plants and plant products of Christmas. Clem will soon risk a hike in the mountains (or in a Safeway parking lot) to find a sapling of *Picea*, *Abies* or *Pseudotsuga* for us to decorate. We plan to deck the

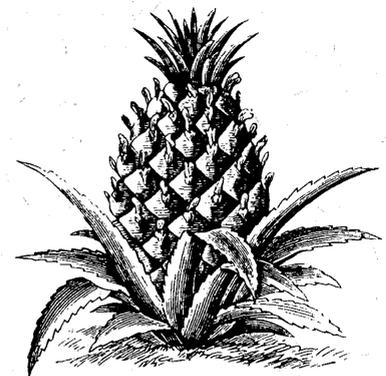

halls with boughs of *Ilex quercifolia* and hang an *Arceuthobium* sprig over the door. If it gets real cold, we could roast *Castanea sativa* seeds over an open fire. Aunt Eneria will probably mail us

her traditional box of candied *Phoenix dactylifera* fruits from California. We'll both go to the nursery to get a *Poinsettia pulcherrima* plant, maybe the variety with mauve-colored upper leaves? We will make the traditional *Zea mays* tamales flavored with *Pimenta dioica*, *Piper nigrum* and cooked in *Musa* leaves. In case the holiday doldrums set in, we have a bottle of *Hypericum perforatum* handy. If indigestion is a

problem we have *Matricaria recutita* and *Mentha piperita* tea available. If we have heartburn, there is *Carica papaya* and *Ananas comosus* in the refrigerator. To stay up until the kids are in bed on the 24th we will need plenty of *Coffea arabica*. And we still are not too sure how many *Zingiber officinale* cookies Santa can eat? Finally, since it's our turn to host the New Year's Eve party, Clem will get the egg nog and I will get the ground *Myristica fragrans* seeds and, perhaps, also a few dried red arils of *Bixa orellana* to sprinkle on top.

Happy Holidays!

¹Clement (Clem) Atis, Fort Collins Chapter

CALLING ALL LEADERS

The Colorado Mountain Club (CMC) will be incorporating more natural history education into some of its trips next summer. The Club would like to hear from CoNPS members interested in accompanying these trips as "naturalists" to teach CMC members about native plants and noxious weeds. For more information, contact Mike Foster at m1foster@carbon.cudenver.edu or by telephone at (303) 279-3026.

CHAPTER NEWS

Boulder Chapter

News Flash — November 12, 1999. CoNPS members, Carolyn Crawford, Jean Morgan, Caryl Shields, Susan Spaulding, and Bill Jennings are proud to announce that their recent efforts to save the Louisville Prairie have met with success. The City of Louisville will not develop the "West Gateway" parcel on the west side of McCaslin Blvd. at South Boulder Rd. The group will continue, with interested colleagues, to work to establish the site as a "Prairie Preserve," perhaps with a trail and information kiosk. Efforts continue, also, to salvage plants and collect seed from the east parcel of the Gateway. Thanks go to all who contacted reporters, wrote and called the city, and spoke at the City Council meeting.

Volunteer needed. The Boulder Chapter seeks a member to take on the responsibility of checking our meeting space at North Broadway and Sumac at least monthly. This would be easiest for someone who lives in the North Boulder area or who passes by there regularly. We would like to keep tabs on the tables and chairs that belong to our Chapter and the City of Boulder Open Space; these items are sometimes there and sometimes not! Communication with the City Open Space office about this would also be appreciated. Call Caryl Shields if you can help: (303) 665-6312.

Monthly meetings are held October through May on the second Thursday of each month at the Foothills Nature Center, located in Boulder on North Broadway opposite its intersection with Sumac Ave. For more information, contact Chapter President Caryl Shields at (303) 665-6312.

December 9, 7:30 PM

The Waterwise Tree, Shrub, and Vine Companion

Jim Knopf, well-known Boulder landscape architect and author, will discuss low-water, low-maintenance plants that can be grown in the Rocky Mountain region. Copies of his new book will be available for sale and autographing. Jim is a very entertaining speaker and always has a lot to say (not always complimentary) about gardening and landscaping in the Denver-Boulder area.

Thursday, January 13, 7:30 PM

The Purple Loosestrife Program

Dave Weber (Colorado Division of Wildlife) has been waging war for the last few years against purple loosestrife, an aggressive, noxious wetland weed. He will discuss the purpose of the program, how it works, and what you can do to help eliminate purple loosestrife from Colorado wetlands.

February 10, 7:30 PM

Botany and Ecology of the Colorado Plateau

Loraine Yeatts has been hiking the trails and climbing the mountains of Colorado and Utah for the last 30 years. An excellent photographer, as well as an accomplished botanist, Loraine will present a slide show on the best of the wildflowers, shrubs, trees, and scenery of the Colorado Plateau, that part of Colorado, Utah, Arizona, and New Mexico centered on the Four Corners.

Salix amygdaloides
Artist: Gary Bentrup

Fort Collins Chapter

Indoor monthly meetings are scheduled through April in the Main Conference Room of the National Seed Storage Laboratory (NSSL) on the campus of CSU. For more information, please contact Chapter President Don Hazlett at (970) 834-1493.

December 7, 7:00 PM

Poisonous Plants of Colorado and the Southwest

Dr. Richard G. Walter (Associate Professor of Biology, CSU) will present a seminar discussing poisonous plants of the Southwest.

February 8, 7:00 PM

Flora of the Colorado Plateau

Loraine Yeatts, botanist, has conducted extensive fieldwork and knows the Colorado flora well. She is especially interested in the Fabaceae and is currently working on the Flora of the Colorado Plateau, which she will discuss.

Metro-Denver Chapter

Indoor monthly meetings are held October through April in the Morrison Center at the Denver Botanic Garden. For more information, please contact Chapter President Denise Larson at (303) 733-4338.

December 7, 7:30 PM

Ute Ladies Tresses Orchid (*Spiranthes diluvialis*)

Jan McKee (US Fish and Wildlife Service) will present current information regarding this threatened orchid, including recently found locations and research.

January 25, 7:30 PM

Relationships between the Southern Rocky Mountain and Russian Altai Floras

Dr. William Weber (CU-Boulder), author of the Colorado Floras, will discuss the relationship between these two floras, and their divergence.

Plateau Chapter

For additional information, please contact Chapter President Jeanne Wenger at (970) 256-9227.

Southwest Chapter

For Chapter news and activities, please contact Chapter President Sandy Friedley at (970) 884-9245.

Yamparika Chapter

For Chapter news and activities, contact Chapter President Reed Kelley at (970) 878-4666.

From the CoNPS Board of Directors

Minutes of the CoNPS Board Meetings

September 25, 1999. The Society elected five board members, each for two-year terms (2000-01): Eric Lane, Andy Kratz, Jill Handwerk, Jun Wen, and Bill Jennings. Tina Jones will complete the term of Chris Leahy (1999-00), who resigned in August. The Board voted to retain the existing slate of officers: Jeff Dawson (President), Jill Handwerk (Vice-president), Denise Culver (Treasurer), and Alice Guthrie (Secretary). It was also voted to give a \$50 honorarium and CoNPS membership to all speakers.

October 30, 1999. Caroline Crawford formally resigned as president of the Boulder Chapter and will be replaced by Caryl Shields. Denise Culver (Treasurer) distributed a Balance Sheet and Profit and Loss Statement through October 27, 1999. The Society has made about \$9,000, with book sales bringing in about \$6,000 and approximately \$2,000 donated to the Marr fund. The Board reviewed policies regarding chapter budgets. To facilitate record keeping and reporting, it was decided to consolidate the Plateau Chapter monies into the state treasury, and not maintain a separate checking account. It was also decided to calculate chapter annual budgets based on membership as of December 31 each year. For 1999, Denise will calculate the amount and inform chapter presidents. The Board also decided that chapter monies should roll over from year to year to be used at the discretion of each chapter.

Committee Report Highlights: **Communications** recommended first class mailing of *Aquilegia* beginning with Vol. 23 No. 6, which was approved by the Board. The January 2000 issue will contain "year in review" articles, which must be submitted by January 1. Leo P. Bruederle will coordinate with chapter presidents and committee chairs. **Conservation** reported accomplishments that included a project with the Evergreen Audubon Society, cooperative work with the Colorado Mountain Club organized by Pat Butler, the Hensel Park project in Denver (native prairie restoration work), and two plant surveys by Fort Collins Chapter members. The West Slope chapters have conducted plant surveys on BLM lands and are providing this information to the BLM. The Committee is now planning summer 2000 activities. The White River National Forest plan, which is now available, will be reviewed by the Conservation Committee. Tina Jones is the new co-chair of **Education**. The **Workshop Committee** reported that eight topics have been scheduled for November-April. The first four have been advertised and are full. The next four will be advertised in *Aquilegia* Vol. 23 No. 6. Bob Powell has joined the Committee, and will be making contacts and handling refreshments for the sessions. Bill Jennings will continue to manage the accounting and arrange topics. The **2000 Annual Meeting** will be held September 23-24, 2000 in Grand Junction. The theme is "Plant Evolution and Ecology of the Colorado Plateau." James Reveal has agreed to speak, with additional suggestions being welcomed by the organizing committee. The Board agreed that the 2000 deadline for **Marr Fund Proposals** will be January 15 (See "Request for Proposals" in this issue.). Eric Lane will update the materials and bring copies to the next meeting for discussion. Jill Handwerk relayed a suggestion from the **Rare Plant**

Technical Committee that CoNPS write a letter to APHIS and the Colorado Department of Agriculture asking for a halt to the release of *Rhinocyllus conicus*, which is attacking native thistles in addition to introduced species. The Board asked Jill and Eric Lane to follow up and report back at the December meeting.

The Board discussed Money Management for CoNPS Funds and considered consolidating funds into an account with Merrill Lynch that earns greater interest. The Board approved a motion that all funds, except the Rare Plant Book Fund, be put into CDs with Merrill-Lynch. A discussion regarding mutual funds was deferred until a future Board meeting, at which time Denise Culver will provide more details.

Meeting Dates:

| | |
|-------------------|--------------------------------|
| January 8, 2000 | Front Range location TBA |
| February 12, 2000 | Front Range location TBA |
| April 1, 2000 | Front Range location TBA |
| May, 2000 TBA | Western slope location TBA |
| | Alice Guthrie, CoNPS Secretary |

Request For Proposals The John W. Marr Fund

On March 24, 1990, the Board of Directors of the Colorado Native Plant Society established the John W. Marr Fund for the award of small grants in support of research in plant biology. The Fund honors the late Dr. John Marr, Professor at the University of Colorado and the first President of the Colorado Native Plant Society. The Fund was established to encourage, through the provision of small grants-in-aid, research on the biology and natural history of Colorado native plants. Both field and laboratory studies are eligible for funding. Awards of \$500 or less are typical and may represent the sole support of a project, may be part of joint funding agreed upon with other granting organizations, or may be used to supplement other funding obtained by the investigator(s).

The Board of Directors is now soliciting proposals for a January 15, 2000 deadline. Information on guidelines and requirements for proposals may be obtained by contacting Board member Eric Lane at (303) 239-4182.

From the Editor

With this issue, the Board has decided to forgo bulk mail in order to facilitate the distribution of *Aquilegia*. Increased costs and restrictions imposed by the US Postal Service have resulted in difficulties and delays associated with bulk mailing. Over the next 12 months, the Board will evaluate the cost to the Society of first class mailing and discuss an increase in membership fees to compensate for mailing costs, but only if deemed necessary.

Please submit contributions for Vol. 24 No. 1 of *Aquilegia* on or before January 1, 2000 for a January 15, 2000 mailing. Include author's name and address. Previously published articles submitted for reprinting require permission from the editor of original publication. Articles submitted via e-mail or on disks — MAC preferably, or IBM — are much appreciated. Please indicate word processing software and version.

FOR YOUR LIBRARY

CoNPS is pleased to provide a selection of books to members at discount prices. If you are interested in any of the publications listed, contact: Velma Richards, 3125 Monmouth Ave., Englewood, CO, 80110 or (303) 794-5432.

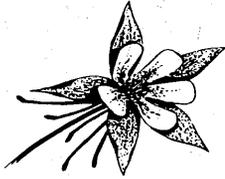

Make check payable to CoNPS. Postage costs are additional for books received by mail. If you want to save postage charges, you can pick up the books yourself from Velma Richards in Denver, Pat Murphy in Boulder, or Denise Culver in Fort Collins.

Colorado Native Plant Society

The Colorado Native Plant Society is a non-profit organization dedicated to the appreciation and conservation of the Colorado native flora. Membership is open to all with an interest in our native plants, and is composed of plant enthusiasts both professional and non-professional.

Please join us in helping to encourage interest in enjoying and protecting Colorado's native plants. The Society sponsors field trips, workshops, and other activities through local chapters and statewide. Contact the Society, a chapter representative, or committee chair for more information.

Schedule of Membership Fees

| | |
|-------------------------|-------|
| Life | \$250 |
| Supporting | \$50 |
| Organization | \$30 |
| Family or Dual | \$15 |
| Individual | \$12 |
| Student or Senior | \$8 |

Membership Renewal/Information

Please direct all membership applications, renewals, and address changes to the Membership Chairperson, Colorado Native Plant Society, P.O. Box 200, Fort Collins, CO 80522. Please direct all other inquiries regarding the Society to the Secretary at the same address.

Aquilegia

Aquilegia is published four to six times per year by the Colorado Native Plant Society. This newsletter is available to members of the Society and to others with an interest in native plants. Contact the Society for subscription information. Articles for *Aquilegia* may be used by other native plant societies or non-profit groups if fully cited to author and attributed to *Aquilegia*.

Please direct all contributions to the newsletter to:
Leo P. Bruederle
Biology, Campus Box 171
University of Colorado at Denver
P.O. Box 173364
Denver, CO 80217-3364
E-Mail: lbrueder@carbon.cudenver.edu

Short items such as unusual information about a plant, a little known botanical term, etc., are especially welcome. Previously published articles submitted for reprinting require permission. Camera-ready line art or other illustrations are also solicited.

Please include author's name and address, although anonymity may be requested. Articles submitted via e-mail or on disks (MAC preferably, or IBM) are appreciated. Please indicate word processing software and version.
